Market Outlook

LOCAL FEATURE

Spring Onions are sweeter and more mellow than regular onions, with greens that are similar in flavor to scallions. Spring Onions look similar to scallions but they have a small onion bulb at the base that can be red or white, depending on the variety. *Sold by the 10# case only from Riverdog Farm and Coke Farm.*

Spring garlic is loved by chefs for its light, delicate flavor. Quite sharp when raw, it mellows when cooked and is ideal for infusing sweet garlic flavor. *Sold by 10# case or pound from Riverdog Farm and Coke Farm.*
